Applications & Recommendations

Munipal 251 is a good washing and wetting agent in soaking stage for all kinds of skins. It can be used as a strong anionic soap to remove all dirt and impurities from the skins during soaking process. As a good emulsifier, it prepares the skins for the next step and after drying, the wool of sheep will be cleaner and brighter than usual process. The dosage of consumption is between 0.3-0.7 percent based on raw weight.
