

Munipal 642

Beamhouse

Degreasing Agent

Description

Munipal 642 is a powerful nonionic degreasing agent usually used in soaking, liming, deliming and degreasing stages. It's outstanding wetting and dispersing action accelerates both soaking and liming and deliming actions.

Specification

Appearance	Watery Viscose Liquid
Nature	Poly Glycol Ethers Blend
Ionity	Nonionic
Activity, %	50
pH (1:10 solution)	7 ± 1
Solubility	Soluble in Water
Safety	According to the best of our experience, it does not have any harmful effect on health
Packing	100 or 200 KG PE Drums
Shelf life	1 year

Applications & Recommendations

Munipal 642 has a very good stability in hard water and some other chemicals. It is also stable to vegetable and synthetic tanning agents. It is compatible to chemicals with different charges. If it is used without solvent, its dosage of consumption will be increased a bit more (max up to 4% for sheep).

The recommendation for use is:
0.3 - 0.5% (Pickled wt.) Cow

2.0 - 2.5% (Pickled wt.) Sheep (with solvent)

3.5 - 4.0% (Pickled wt.) Sheep (without solvent)

0.5-1.0% (Pickled wt.) Goat Sheep:

After DE pickling and fleshing, raise PH to 6.0-6.2 by

Sodium bicarbonate and drain well.

Float less 3 % **Munipal 642** 60'

+100 % Water 35°C 30' drain

50 % Water 35°C

1 % **Munipal 642** 30' drain Wash until clear water and do the usual processes. Also it can be used in DE pickling up to 0.5% and it should be kept in mind for better action it is recommended (in main degreasing) to be done with very short float.

Storage Conditions

The product should be well sealed and must be stored in covered area between 5-25°C. Freezing and direct sun light must be avoided.
