

Municipal M

Beamhouse

Eco-friendly & Solvent-free Degreasing Agent

Description

Municipal M is a powerful nonionic degreasing agent suitable for all kinds of hides and skins.

It also can be used during the soaking, liming, delimiting and bathing processes to accelerate them and giving cleaner, smoother and more uniform pelts.

Specification

Appearance	Clear viscous liquid
Nature	Polyoxy ethylene oxide
Water Content, %	Max. 0.5 %
pH (1:10 solution)	7 ± 0.5
Safety	According to the best of our experience, it does not have any harmful effect on health
Packing	100 or 200 KG PE Drums
Shelf life	1 year

Applications & Recommendations

Municipal M has outstanding emulsifying and power for fats, fatty acids and dirt of all kinds. It brings about more even distribution of fats and facilitates penetration of the chemicals. It can be used in alkaline and acid pH range. It dissolves equally well and quickly in both cold and warm water.

Municipal M is free of alkyphenol (AP) and alkyphenol ethoxylates (APEO) and readily biodegradable.

Municipal M liquid may precipitate if used with vegetable and synthetic replacement syntans. Separate baths should therefore be used when working with such products.

Our recommendation for use:

Degreasing:

Sheep pelts: 3-4% (based on weight) without using of solvent

Sheep pickled: 2.5-3% (based on pickled weight) without using of solvent.

In soaking, delimiting and bating: 0.3 - 0.5%

If solvent is used together with the **Municipal M** for degreasing, the dosage of consumption of **Municipal M** can be decreased up to 40%.

Storage Conditions

The product should be well sealed and must be stored in covered area between 5-25°C. Freezing and direct sun light must be avoided.
