

## Munital MF

### Leather Chemicals

#### Deliming Auxiliary

#### Description

**Munital MF** is a special deliming agent which can be used singly for delimiting stage in any type of leather, in drum, paddle or pit.

**Munital MF** delimes the pelt layer by layer and produces easily soluble calcium salts and is able to dissolve any lime blast which is already existing. It can also be used in short float processes. Pelts delimited with **Munital MF** have a clean and flat grain with good tightness.

#### Specification

<b>Appearance</b>	White powder
<b>Nature</b>	Combination of low molecular acids and organic and inorganic compounds
<b>Solid Content, %</b>	93 - 95
<b>pH (1:10 solution)</b>	5 ± 1
<b>Safety</b>	According to the best of our experience, it does not have any harmful effect on health
<b>Packing</b>	25 KG PE Bags
<b>Shelf life</b>	1 year

#### RECIPE:

1.0-1.5%	(Pelt wt.)	Cow
0.5-1.0%	(Pelt wt.)	Sheep
1.0-1.5%	(Pelt wt.)	Goat

#### After liming and fleshing

300%	Water 25°C	15 min
	drain	
300%	Water 30°C	15 min
	drain	
100%	Water 30°C	
0.1%	Munipal 642	
0.5%	<b>Munital MF</b>	30 min
+50%	Water 40°C	
X%	<b>Munital MF</b>	30-60 min

Bating and usual processes.

#### Storage Conditions

The product should be well sealed and must be stored in covered area between 5-25°C. Freezing and direct sun light must be avoided.

#### Applications & Recommendations

To protect the hides and skins, the necessary amount of **Munital MF** should be added in 2 or 3 portions.

After the required degree for delimiting, bating can follow in the same float.
