

Munitan MHMN

Tanning

Syntan & Auxiliary

Description

Munitan MHMN is a retanning agent, based on amino resins, for the retannage of all types of chrome leathers.

Munitan MHMN brings an increase in leather fullness, especially for the looser structured areas of the hide.

Munitan MHMN improves the grain tightness, encourages the buffing and printing properties and improves the dye leveling.

Specification

Appearance	Light Brown Powder
Nature	Amino Resin
Ionity	Anionic
pH (1:10 Solution)	Approx. 9.5
Safety	According to the best of our experience, it does not have any harmful effect on health
Packing	25 KG PE Bags
