

## Munitan MR7

Tanning

Syntan & Auxiliary

### Description

**Munitan MR7** is a resin tanning agent with a selective filling effect, especially on loose parts like bellies which is used in any type of leather.

### Specification

<b>Appearance</b>	Beige Powder
<b>Nature</b>	Resin tanning agent
<b>Ionity</b>	Anionic
<b>pH (1:10 Solution)</b>	9 ± 0.5
<b>Safety</b>	According to the best of our experience, it does not have any harmful effect on health
<b>Packing</b>	25 KG PE Bags
<b>Shelf life</b>	1 year

### Storage Conditions

The product should be well sealed and must be stored in covered area between 5-25°C. Freezing and direct sun light must be avoided.

### Applications & Recommendations

**Munitan MR7** imparts the leather a very good filling. It is effective in dye penetration and levelling if used also together with Munitan MP2.

**Munitan MR7** hasn't any bleaching effect on dye and imparts a bit beige color to leather, it is not recommended alone for white crusts.

**Munitan MR7** improves the buffing and embossing properties and gives a favorable response to finishing.

The consumption rate varies with the type of leather and is about 1-4% (based on the shaved weight) after neutralization and dyeing.
