##### Description

**Munitan MSN** is a Naphthalene based syntan with strong dispersing power and levels dyeing and helps the dyestuffs to penetrate.

#### Specification

<b>Appearance</b>	Brown Powder
<b>Nature</b>	Mixture of sodium lignin Sulphonate, naphthalene Sulphonate & formaldehyde condensate
<b>Ionity</b>	Anionic
<b>Safety</b>	According to the best of our experience, it does not have any harmful effect on health
<b>Packing</b>	25 KG PE Bags
<b>Shelf life</b>	1 year

#### Storage Conditions

The product should be well sealed and must be stored in covered area between 5-25°C. Freezing and direct sun light must be avoided.

#### Applications & Recommendations

**Munitan MSN** imparts the leather a uniform handle and tight grain, so the grain remains elastic and tanning speed is increased. This product has a medium light fastness.

**Munitan MSN** improves the distribution and uptake of retanning agents.

It reduces the formation of large particles in vegetable extracts.
